

Gideon Sigilai

Software Engineer

Nairobi, Kenya
📞 +254 757 015 999
✉️ gideon.sigilai3000@gmail.com

Professional Summary

Passionate Software Engineer specializing in high-performance mobile application development using Flutter. Proven track record of delivering polished, user-centric Android applications with complex UI/UX requirements. Expert in translating design concepts into pixel-perfect code and optimizing app performance. Possesses a solid foundation in native Android development and a keen interest in emerging mobile technologies. Eager to bring technical precision and creative problem-solving to a dynamic engineering team.

Experience

Sept 2024–Present **Software Developer**, *Techlina*, Nairobi

- Lead developer for the flagship 'Onekitty' application, overseeing the full software development lifecycle (SDLC) from architectural planning to production deployment.
- Collaborated closely with backend, UX/UI, and web frontend engineers, leveraging team mentorship to refine development practices and achieve technical excellence.
- Implemented efficient state management solutions and optimized app performance across diverse Android devices.

Mar 2024–Aug 2024 **Software Developer**, *InspireHub Software Limited*, Machakos

- Focused on feature enhancements and bug resolution for enterprise mobile applications, significantly improving app stability.
- Worked within cross-functional Agile teams to innovate internal processes, streamlining development workflows by 20%.
- Enforced strict code quality standards through peer reviews and automated testing integration.

Sept 2023–Nov 2023 **ICT Intern (Attachment)**, *County Government of Nakuru (Health Dept)*, Nakuru

- Managed critical network infrastructure, ensuring 99.9% uptime for health department digital services.
- Conducted routine hardware and software troubleshooting, providing technical support to over 50 government staff members.
- Assisted in the rollout of government digital initiatives, enhancing data security and operational efficiency.

Key Projects

- 2025 **Moovs App, Flutter & Supabase**
Developed a creator economy platform allowing artists to monetize merchandise and receive fan donations. Integrated Supabase for real-time database management and secure authentication, ensuring seamless transaction processing and user data protection.
- 2024 **Onekitty App, Mobile Front-End (Flutter)**
Lead front-end engineer for a comprehensive fundraising and group management platform. Crafted pixel-perfect UIs from design prototypes, implemented complex animations, and ensured a responsive experience across varied screen sizes. Optimized application state and navigation for smooth performance.
- 2024 **Plant Disease Checker, Flutter & TensorFlow Lite**
Developed an offline-first mobile tool empowering farmers to diagnose crop health. Integrated TFLite models directly into the Flutter application to process camera input and predict plant diseases in real-time with high accuracy, without requiring an active internet connection.
- 2025 **Fortis Authenticator, Flutter**
Built a secure 2FA (Two-Factor Authentication) application similar to Microsoft Authenticator. Features include TOTP generation for third-party services, QR code scanning for quick setup, and biometric security layers (fingerprint/face ID) to protect sensitive token data.
- 2025 **Kalenjin Dictionary, Flutter**
Created a cultural preservation tool serving as a digital dictionary for the Kalenjin language. Implemented fast search algorithms, a favorites system, and an intuitive navigation structure to make indigenous language learning accessible to a modern audience.

Technical Skills

- Languages Dart, Java, Python (Basic), Go, Bash
- Mobile Flutter, Android Native (Java)
- Web Svelte, Tailwind CSS, Node.js
- Tools Git/GitHub, Firebase, Supabase, Linux, VS Code
- CoreConcepts API Integration, Cybersecurity (Basic), Machine Learning (Mobile)

Education

- 2021–2024 **B.Sc. in Computer Science, Gretsa University, Thika**
Graduated with strong focus on Software Engineering.
- 2017–2020 **Kenya Certificate of Secondary Education, Longisa High School**

Honors & Awards

March 2024 **First Place in Mobile Development**, *Gretsa National Programming Contest*

Recognized for excellence in algorithm design and rapid application development.
